## Clarke's Blood Mixture

THE WORLD-FAMED BLOOD PUR-  
IFIER AND RESTORER.  
It WAKES THE CIRCULATION,  
CLEANS THE BLOOD, and  
removes all impurities from  
whatever cause arising.

For Scrofula, Scurvy, Eczema, Skin  
and Blood Diseases, Blackheads, Eruptions,  
sores of all kinds, it is a never failing  
permanent cure. 1.

Cures Old Sores.  
Cures Sores on the Neck.  
Cures Sore Legs.  
Cures Blackhead or Pimples on the  
Face.

Cures Scurvy.  
Cures Ulcers.  
Cures Blood and Skin Diseases.  
Cures Glandular Swellings.

Cleans the Blood from all impure matter.  
From whatever cause arising.  
It is a real specific for Gout and Rheu-  
matic Pains.

It removes the cause from the Blood  
and Bones.  
As this Mixture is pleasant to the taste  
and warranted free from anything injuri-  
ous to the most delicate constitution it  
either sex, the Proprietors solicit sufferers  
to give it a trial to test its value.

THOUSANDS OF TESTIMONIALS OF WON-  
DERFUL CURES  
FROM ALL PARTS OF THE WORLD.

Clarke's Blood Mixture is sold in bottles  
of 50 each, and in cases containing  
the quantity, 112—sufficient to effect  
a permanent cure in the great majority  
of long-standing cases. BY ALL CHEM-  
ISTS AND PATENT MEDICINE VEND-  
ERS throughout the world. Proprietors  
THE LINCOLN AND MIDLAND COGN-  
ITIVE DRUG COMPANY, Lincoln, Eng-  
land. Trade mark—"BLOOD MIXTURE"

**CLARKE'S BLOOD MIXTURE.**

CAUTION.—Purchasers of Clarke's  
Blood Mixture should see that  
they get the genuine article. Worthless  
imitations and substitutes are sometimes  
palmed off by unprincipled vendors. The  
words, "Lincoln and Midland Cogni-  
tive Drug Company, Lincoln, England," are  
engraved on the Government stamp, and  
"Clarke's World-Famed Blood Mixture"  
is blown in the bottle, WITHOUT WHICH  
NONE ARE GENUINE.

London.

## ISLANDS SHOULD BE REPUBLICAN

### Senators Unite in Expression of Interest.

Bedecked with leis, bowing their ap-  
preciation of the hearty alohas which  
followed them as the Sierra backed out  
from the dock, Senators Mitchell, Fos-  
ter and Burton, who since the first  
week of the month have been officially  
investigating conditions in Hawaii,  
took their departure yesterday after-  
noon. There was a great turning out  
of people of all sorts and conditions to  
show their good feeling toward the vis-  
itors. Accompanying the Senatorial  
party were Mrs. Burton, Mrs. Foster,  
Miss Griggs, Secretary and Mrs. H. C.  
Robertson, former Senator and Mrs.  
John M. Thurston, Mr. Carroll Purman,  
Mr. and Mrs. Paul Mohr, Mr. Hayward  
and Mr. Bishop of Washington, who  
came down at the same time.

The leave-taking of the members of  
the Senatorial party was an impressive  
one, for not only was the Hawaiian  
Hotel thronged with their friends all  
day long, but upon their appearance at  
the dock they were besieged by people  
who wished to bestow a lei or shake  
hands with the men whose hard work  
during their stay gives promise of good  
to follow. There were hundreds of  
friends about and the universal ex-  
pression from the members of the party  
was that of regret that their pleasant  
and visit must come to an end. This  
was met on the other hand by the most  
honest alohas and wishes for a safe  
journey on the part of the Honolu-  
lu people.

Senator Mitchell, chairman of the  
committee, was most expressive in his  
appreciation of the hospitality with  
which the committeemen met during  
their stay. He said that he would re-  
member with pleasure his experiences  
here and hoped that he might have  
another opportunity to visit the is-  
lands. Asked as to the political outlook  
on the mainland he said: "From what  
I hear there will be a landslide for Re-  
publicanism. We have the Senate safe  
for several years, and from the re-  
ports which have come to me from the  
mainland there will be a gain in the  
membership of the House. I have re-  
frained from taking any part in politics  
here, but I am a Republican and I hope  
to see the Republicans win all along  
the line. Hawaii has gained much  
from the friendship of the Republican  
party in the past and certainly must  
look in the future to that party for ev-  
erything that will come for the benefit  
of the Territory."

Senator Foster, from whom there is  
no shrewder business man in the North-  
west, said on the same topic: "From  
what I hear there will be even a great-  
er majority of Republicans in Congress  
next time than there is now. Every-  
where there is the same prosperity  
which has marked the past few years.  
There seems to be cloud on the business  
sky. There are shortages in the money  
market here and there, and as these  
are due primarily to speculation and  
over-investment, of which you may  
have some knowledge here, they must  
not be taken as any indication of the  
general business conditions of the  
country. Republican rule has made  
this possible, and I can see no reason  
why there should not continue for  
years to come a similar condition of  
affairs."

It is hard to understand what the  
people of Hawaii expect to gain by not  
lining up with the Republican party.  
There is nothing that can be had by  
having a representative who is all  
alone in Congress. A Home Ruler has  
no party behind him or to work with  
him. If you had a Republican he  
would work with him and see that he  
got what was wanted, when it was  
right. There is a bond between men of  
the same party affiliation. As it is  
without such party affiliation, it is hard  
to enlist the assistance of members of  
other parties. If you send Prince Cu-  
pid to Washington we will put him  
right in line and help him along. That  
is natural.

"The next Congress and many suc-  
ceeding Congresses will be purely Re-  
publican and if the people of Hawaii  
are wise they will get into line with the  
majority and have reason to expect  
that they will be well taken care of in  
every way."

Senator Burton, the junior member  
of the commission, was asked for an  
expression upon the political outlook  
and reiterated what his colleagues had  
said. He continued: "I came here as  
a legislator and not as a partisan, and  
so have taken no part in politics. I am  
a Republican and believe confidently  
that the success of the principles of the  
party of which I am a part means the  
continued prosperity of the country.  
With this conviction I hope to see the  
time when the Territory of Hawaii will  
be Republican, as well as all the other  
Territories and States of the Union."

Former Senator Thurston and Mrs.  
Thurston were accompanied to the dock  
by a long line of friends and were  
heartily bid bon voyage by many peo-  
ple. Mrs. Thurston waved a miniature  
Hawaiian flag and the people cheered it  
as the ship moved.

## LOUISIANA PURCHASE FAIR WILL BE GREAT EXPOSITION

### National Commissioner Thurston Says the Outlook Is That St. Louis Will Be Center of Immense Gathering.

"When the Louisiana Purchase Ex-  
position opens it will be with every  
one of its buildings complete and its  
exhibits installed." Thus former Sen-  
ator John M. Thurston, one of the Na-  
tional Commissioners in charge of the  
great exposition, described the plans  
which are now being pushed forward  
for the Exposition which promises to  
be the very greatest that has been  
given. Continuing he said: "The peo-  
ple will go to see a truly great ex-  
position, where they would not attend one  
of only the first grade. So the Louisi-  
ana Purchase Fair will be made more  
truly grand than any one ever held."

"There is in hands of the corporation  
something above \$15,000,000 for the  
work, this being the aggregate of the  
appropriations by the United States  
government, the city of St. Louis and  
the proceeds from the sales of bonds.  
In addition to these vast sums there  
will be others from the national gov-  
ernment and from the various States,  
and in addition the receipts will per-  
haps be mortgaged, and there will be  
returns from the sale of concessions,  
until from the outlook now there will  
be expended upon the Exposition prop-  
erly before it is opened for the public  
something close to \$30,000,000, or even  
that sum may be exceeded."

"While the Fair will not be ready for  
visitors until 1904, the main buildings  
are now being erected and already a  
large number of the national associa-  
tions have arranged for the holding of  
their annual sessions next year in St.  
Louis. This will mean that a building  
will be finished and set apart for such  
gatherings, upon the Exposition  
grounds, and as a consequence there  
will be such advertisement and such  
thorough knowledge of the Fair, and  
its plan and scope, that the people of  
the world will know just what to ex-  
pect, and that they will attend in large  
numbers will be certain."

"I am very much pleased with the  
outlook for a comprehensive exhibit  
from Hawaii. I have talked generally  
with some of the men interested and  
they are going into the work with spir-  
it. I think a really fine exhibit from  
Hawaii will have the very best effect  
upon the islands, and will have much  
to do with their future. The resources,  
the industries of the Territory, are not  
known except in few instances. When  
some of the business men go to the  
United States with a specific proposal,  
they lay it before a few men and the  
knowledge thus spread stays in the  
narrow sphere directly affected. But  
by making a complete display of the  
resources of the islands, it will be pos-  
sible to reach a large number of the  
best people of the world and leave  
such impressions as cannot but result  
in closer inquiry and better acquaint-  
ance with the islands."

"I am not referring in talking of dis-  
plays to the sort of exhibitions given  
at Omaha or Buffalo, but exhibitions of  
the products of the islands. The possi-  
bilities for investment are most attrac-  
tive to the capitalists of the United  
States at this time. So long as the  
conditions remain as they now are the  
moneyed men of the mainland are busi-  
ness seeking investments, and I cannot  
but think if the conditions surrounding  
the industries of these islands are prop-  
erly set before them, there will be re-  
sults of the greatest importance to the  
people here."

"The sugar industry is now under a  
depression, but this cannot last long.  
Even the most unfavorable aspects,  
such as the annexation of Cuba, cannot  
have a lasting effect of depression.  
With Cuba, Porto Rico, these islands  
and the mainland producing sugar,  
there will not come into the country  
free of duty more than one-half the  
amount of the consumption of sugar.  
Then too it must be remembered that  
the use of sugar is increasing at the  
rate of 10 per cent each decade. This  
will mean the consumption of an ex-  
ceedingly large amount of the product  
and it cannot but mean greater pros-  
perity in the future for the islands."

"Another thing which should be put

before the people of the country is the  
desirability of the islands as a place of  
residence. There is in the United  
States now a large class of men who  
are small capitalists in a way, men who  
have retired from business. They are  
people who are seeking some place with  
a more equable climate than they have  
been able to find in the states, where  
they may quietly spend the remainder  
of their lives. Some of them find a  
spot in California, and in fact the ma-  
jority of the residents of Southern Cali-  
fornia come from this class. Some of  
them find spots in Florida and other  
points of the South and south west,  
and if they knew of the perfection of  
this climate, there would be without  
doubt a large number of them come  
here. I have been more than delighted  
since my arrival. I have found the  
most pleasant climate and a community  
of people who for intelligence and so-  
cial qualities are superior to the aver-  
age community of the mainland. These  
facts coming to the knowledge of men  
and women seeking homes could have  
no other effect than to send great num-  
bers of them here for the purpose of  
spending their days."

"I should say that the first thing  
would be for the people to decide upon  
a Hawaiian house. It would be more  
impressive if all the exhibits were made  
there without their being distributed  
among the many great buildings and  
thus lost to sight. There should be dis-  
plays of all the industries, and each  
should be explained by the means of  
pamphlets and data which could be  
taken away. Relief maps and every  
means that can be devised to give a  
correct idea of the topography of the  
islands should be employed."

"Then the attention should be given  
to having a corps of men who would  
carefully explain to every visitor the  
islands and the industries. The advan-  
tages of advertising during the exist-  
ence of the Fair cannot be overstat-  
ed. A newspaper man with a thorough  
knowledge of the United States and ac-  
quaintance with the men of that busi-  
ness would be able to secure publication  
of more matter with reference to the  
different cities of the country to try  
and place matter with reference to  
the islands. There will be published a  
great amount of matter from the Fair,  
and if advantage is taken of the oppor-  
tunity, there can be no result other  
than one favorable from such efforts as  
I mention."

"The importance of getting to work  
must not be overlooked. During 1903  
there will be a constant stream of vis-  
itors to the grounds. The formal open-  
ing will take place on May 1st of next  
year, though the actual opening of the  
Fair will be delayed for a year after  
that date. Many of the buildings will  
be in shape for visitors, and the many  
people who will attend the Association  
meetings and the sessions of the great  
orders there, will spread the news of  
what is to be seen. It would be of the  
greatest advantage if there was a  
building for Hawaii completed at once  
and three or four people kept in it dur-  
ing the entire summer for the purpose  
of explaining to visitors the maps and  
data which could easily be placed about  
the structures."

"As the Fair will continue only dur-  
ing the months when the weather is  
suitable for such vegetation as grows  
here, it would be wise to surround the  
building with palms and foliage plants,  
such as make the islands attractive to  
visitors from other climates. I predict  
a most successful exposition, and I  
think there will be the greatest good  
come to the islands from the making  
of a display which is in keeping with  
the importance of the industries."

"Of course there will be a govern-  
mental display which will have to do  
with the islands in a way. There will  
be, it is expected, a gathering of the  
native populations of the various is-  
land possessions of the Nation. The  
people of Hawaii will stand almost  
alone in that, for they are of a race  
which classes away above the people  
of Porto Rico and the Philippines."

## HOW UNCLE SAM TAKES CARE OF LEPERS IN PHILIPPINES

The Manila Times says:

Tuesday night between the hours of  
ten and four, nineteen lepers escaped  
from the San Lazaro Hospital. Fifteen  
were men and four women. Upon in-  
terviewing some of the authorities, the  
only explanation that can be given is  
that the police who guard the hospital  
are so careless that it is a wonder there  
were any lepers in the hospital this  
morning at all.

The building where the lepers are  
kept is the second one from the en-  
trance off the main road, and is sur-  
rounded by a stone wall about four  
feet high. The lepers are kept upstairs  
in this building at night, but during  
the day they are allowed to run around  
the yard, back of the building. This  
wall around the building is about  
seventy-five yards from the entrance  
and it is very easy for the inmates  
to get over it if they want to.

In the building upstairs where the  
lepers sleep, there is an old Filipino  
who calls the roll every morning and  
then reports to the attendants in  
charge how many are present and how  
many are absent. This morning when  
the roll was called there were nineteen  
missing, and the authorities of the dif-  
ferent outside towns were notified im-  
mediately. At a few minutes' past sev-

en two of the lepers were caught at  
Caloocan, and at nine o'clock they were  
in the San Lazaro ward again. The  
manner of the escape is explained in  
that in the hallway downstairs there  
are a number of closets and large boxes,  
and it is the opinion of some of the  
authorities that while they were being  
sent upstairs at dusk last night, which  
is the time when they have to turn in,  
those who had planned the escape just  
dropped into the openings and stayed  
there until the policeman was taking  
his midnight nap, and then made  
tracks for outside. It is the general  
opinion of those in authority at the  
hospital that this escape was planned  
for some time, and they are sure that  
something will develop later. It is be-  
lieved that the lepers were assisted by  
outsiders. There are over one hundred  
and ninety lepers in the hospital and  
the treatment they receive is of the  
best.

It is understood that before night  
all the men will be back in the ward  
again. The direction in which most of  
them went is toward Caloocan, and it  
will not take the authorities long to  
locate them all.

It is easy for one or two to escape  
if the lepers care to watch their oppor-  
tunities.

## W.A. WRIGHT IN TROUBLE OVER FUNDS

### Arrest Ordered of Assessor at Waimea.

Walter A. Wright, former deputy tax  
assessor for Waimea District, Kauai,  
and a brother of ex-Treasurer Wright,  
is alleged to be short in his accounts to  
the amount of \$2,815.40, and an officer  
left on the Kauai yesterday afternoon  
with instructions to place him under  
arrest. This Wright is under bonds  
and the Territory will consequently not  
lose by the shortage. The report of the  
defalcation was first brought to Treas-  
urer Cooper yesterday by E. E. Conant,  
Assessor for the Island of Kauai.  
The shortage in Deputy Assessor  
Wright's accounts was known to Treas-  
urer Wright some months ago and the  
latter promised Assessor Conant that  
it would be made good. It has been  
persistently rumored since the flight of  
the treasurer that the money taken by  
him was not used for his personal  
benefit, but to help others out of trou-  
ble. As far as this case is concerned  
however, the treasurer evidently did  
not seek to make it good.

Treasurer Wright's attention was  
called to his brother's defalcation upon  
his visit to Kauai some months ago,  
and after an investigation, Walter A.  
Wright was suspended as deputy as-  
sessor for Waimea district, and the  
treasurer agreed to see that the short-  
age was made up. This was not done  
and when the treasurer's sudden flight  
from Honolulu became known in Lihue,  
Mr. Conant immediately came to Honolu-  
lu to inform the authorities of the  
occurrence.

Secretary Cooper said yesterday that  
the Territory would not lose anything  
by this most recent defalcation, as  
Wright was under bonds, and recovery  
could be had from the bondsmen.  
Criminal proceedings are also to be in-  
stituted charging Wright with em-  
bezzlement and an officer was sent over  
on the Kauai yesterday to arrest him.  
The shortage in this instance, amount-  
ing to \$2,815.40 is said to have occurred  
in the failure of Wright to turn over  
to the assessor the collections made by  
him in the Waimea district.

#### THE AUSTIN CASE.

No new move was made in the Aus-  
tin case yesterday. A warrant was  
made out for Mr. Austin for his ser-  
vices up to and including the 25th day  
of September, the date of his suspen-  
sion, but it had not been called for yes-  
terday up to the hour of closing busi-  
ness. To the demand for salary for the  
time including the suspension, Governor  
Dole made a reply which is printed  
elsewhere.

#### BOYD MAY COME TODAY.

Supt. J. H. Boyd of the Department  
of Public Works may come on the Ven-  
tura today though this is hardly likely  
in view of the news received by the  
last steamer. When the China left San  
Francisco Mrs. Boyd was still ill and  
when Mr. Boyd started on his vacation  
it was the intention of remaining with  
his wife until she recovered. At that  
time he had received mail from the  
Ventura and he should also have re-  
ceived three days' later news from the  
Doric prior to the departure of the Ven-  
tura from San Francisco on her pres-  
ent trip. If Treasurer Wright's letter  
was sufficiently urgent it is possible  
that Boyd may return on today's  
steamer.

In the meantime the employees in the  
Department of Public Works are wor-  
rying considerably over the absence of  
Mr. Boyd, for until he returns they can  
receive no pay. Yesterday was the regu-  
lar pay day for government employees  
and all but those in the Department  
of Public Works received their salaries.  
Treasurer Wright was given authority  
to act for Boyd and as he is gone there  
is no head to that Department. As a  
consequence Auditor Meyers yesterday  
refused to issue warrants as the audit  
act requires the approval of the head  
of the department, and without Boyd's  
signature or that of some one acting  
in his place, no warrants can be given  
out under the law. About \$28,000 in  
salaries is tied up in the Public Works  
Department, and unless Boyd comes  
home today, an acting Superintendent  
of Public Works will have to be ap-  
pointed.

#### Cable Prophecy.

At the celebration, in New York,  
March 10, 1873 of the 25th anniversary  
of the formation of the company for laying  
the first Atlantic cable the projector of  
the enterprise, Mr. Cyrus W. Field,  
made an address in which he spoke of  
the great progress ocean telegraphy  
had made all over the world up to that  
date. Towards the close of his remarks  
he said:

"One thing only remains which I still  
hope to be spared to see, and in which  
to take part, the laying of a cable  
from San Francisco to the Sandwich  
Islands—for which I have received this  
very day a concession from King Kal-  
akaua, by his minister, (Hon. E. H.  
Allen) who is here tonight—and from  
thence to Japan, by which the island  
groups of the Pacific may be brought  
into communication with the continents  
on either side—Asia and America—thus  
completing the circuit of the globe. But  
life is passing, and perhaps that is to  
be said."

SORE AND SWOLLEN JOINTS,  
sharp, shooting pains, torturing mus-  
cles, no rest, no sleep—that means  
rheumatism. It is a stubborn disease  
to fight, but Chamberlain's Pain Balm  
has conquered it thousands of times.  
One application gives relief. Try it.  
All dealers and druggists sell it. Ben-  
son, Smith & Co., Ltd., agents for Ha-  
waii.

## Impure Blood

Impure blood will always make you  
sick. You suffer from headache, great  
depression, indigestion, sleeplessness,  
a bad skin, extreme exhaustion, and  
you can hardly drag yourself about.

Read what Mr. H. J. Matthews, of Well-  
ington, New Zealand, says about this. He also  
sends his photograph.

"I have suffered a great deal from impure  
blood, especially from boils on my arms and  
back. I felt weak all over and was greatly  
depressed. I began to use Ayer's Sarsaparilla.  
After taking only a little of it I felt better,  
and soon my troubles disappeared. I believe  
this medicine is the best blood-purifier and  
the strongest tonic that any one can buy."

## AYER'S Sarsaparilla

There are many imitations "Sarsaparillas."  
Be sure you get Ayer's.

Use Ayer's Pills every time your bowels be-  
come constipated, or when you are bilious or  
have sick headache. They cure quickly.

Prepared by Dr. J. C. Ayer & Co., Lowell, Mass., U.S.A.

HOLLISTER DRUG CO., Agents.
